OEN250 Filter and extraction system for oil/emulsion mist

As part of optimizing the range of products and the range of oil/emulsion mist extraction systems, the OEN250 system has been removed from the TBH range.

The TBH product range still offers a large selection of filter and extraction systems for applications in machining or generally for extraction processes, in which oil mist, emulsion mist and particles with moisture content are to be extracted.

- OEN150 Filter and extraction system
- OEN155 Filter and extraction system
- OEN710 Filter and extraction system

OEN250 Filter and extraction systems that have already been ordered will be delivered according to the order confirmation.

Do you have an inquiry regarding oil/emulsion mist? Please feel free to contact our sales department for individual advice.

If you have any questions, please feel free to contact your sales representative.

Sincerely yours,
TBH GmbH
